PROFESSIONAL SUMMARY

Full-Stack Engineer with 3+ years building production platforms across HR SaaS, fintech, EdTech, and AI domains. Strong in React/Next.js, TypeScript, and Node.js, with hands-on Stripe payments and multi-tenant architecture. Self-taught engineer who thrives in high-ownership environments, shipping features end-to-end from database schema to polished UI.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Redux Toolkit, Zustand, TanStack React Query, Tailwind CSS, Material UI, Vite

Backend: Node.js, Express.js, tRPC, REST APIs, Zod, JWT / RBAC

Databases & ORMs: MySQL, PostgreSQL, MongoDB, Firebase, Drizzle, Prisma, Sequelize, TypeORM

Cloud & Tools: AWS (S3), Git / GitHub, Vite, Vercel

Integrations: Stripe (incl. Connect), Firebase Auth, Twilio, SendGrid, Onfido (KYC), Web3 / Smart-Contract ABIs

WORK EXPERIENCE

Full-Stack Developer | Bosc Tech Labs Sep 2022 – Jun 2026

Delivered production features across multiple client products in a fast-paced Agile team.

- Shipped full-stack features across React/TypeScript and Node/Express for 9+ client platforms in fintech, HR SaaS, EdTech, and AI domains.
- Built REST and tRPC APIs with Node.js/Express, including database schema design and migrations across MySQL and PostgreSQL.
- Designed dual state management (Redux/Zustand + TanStack React Query), improving cache consistency and cutting redundant API calls.
- Built reusable React/Tailwind/Material UI component libraries reused across multiple apps to eliminate duplication.
- Enforced end-to-end type safety (TypeScript, tRPC, Zod) and peer code reviews, reducing runtime errors.

KEY PROJECTS

PollenPay — Buy-Now-Pay-Later Fintech Platform *Next.js, TypeScript, tRPC, Drizzle, Stripe*

- Built 28+ tRPC API routers across Admin, Consumer, and Merchant apps (pnpm monorepo) with KYC onboarding and order flows.
- Integrated Stripe (idempotent payment intents), Onfido KYC, and Twilio/SendGrid auth; designed a 30+ table Drizzle schema on a Turso edge DB.

Clockies (Logwork) — Multi-Tenant HR & PM SaaS *React, Node.js, Express, Sequelize, MySQL*

- Built REST APIs across 32+ route modules and 42 Sequelize models (40+ migrations) with multi-tenant isolation and JWT/RBAC.
- Automated leave management and node-cron email reports with SMTP retry logic.
- Integrated AWS S3 presigned-URL uploads and built Kanban boards and analytics dashboards with Material UI and Recharts.

BSchool — Multi-Tenant EdTech & Recruitment Platform *React, Vite, Redux, React Query, Material UI*

- Built two separate React portals (Admin + Recruitment) with role-based protected routes across 6+ user roles and Chart.js analytics dashboards.
- Implemented advanced data tables (Material React Table), multi-step Formik/Yup forms, drag-and-drop (react-beautiful-dnd), and file uploads; managed state with Redux + React Query.

Fast Fluence — AI Video SaaS *React, TypeScript, FFmpeg*

- Built the React frontend for an AI video SaaS, including a web-based video editor integrated with an FFmpeg video-processing pipeline.
- Developed editor UI and media-preview components, connecting client-side editing actions to the backend rendering service.

EDUCATION

Full-Stack Development Program | Brototype, Kochi 2022

Mechanic Motor Vehicle (ITI) | ITI Kalamassery, Kerala 2019 – 2021
